

DudeX Innovations

Artificial Intelligence (AI) Internship Program

About DudeX Innovations

DudeX Innovations is an IT company committed to delivering innovative technology solutions through Website Development, Mobile Application Development, Artificial Intelligence, Software Development, and Cloud Hosting Services.

Our mission is to bridge the gap between academic learning and industry expectations by providing students with hands-on experience through real-world projects. We encourage interns to think creatively, solve practical problems, and develop industry-ready solutions.

Artificial Intelligence (AI) Internship

This internship is designed to help students gain practical experience in Artificial Intelligence by building real-world applications from scratch.

Rather than following step-by-step tutorials, every intern is expected to analyze a problem, generate their own ideas, design a solution, develop the project, test it, and present the final outcome. The goal is to enhance creativity, problem-solving skills, technical knowledge, and project development experience.

Project Requirement

Each student must complete **two projects** during the internship.

Students must choose:

Project 1 (Minor Project): One project from **Generative AI**

Project 2 (Major Project): One project from **Computer Vision**

Students are encouraged to improve the selected project by adding their own unique features, innovations, and creative ideas.

The final implementation should demonstrate originality, technical understanding, and real-world usability.

Minor Project: Generative AI

Select **one** project from the following:

- AI PDF Chatbot
 - AI Resume Analyzer
 - AI Interview Preparation Assistant
 - AI Document Summarizer Generator
 - AI Basic Code Assistant
-

Major Project: Computer Vision

Select **one** project from the following:

- Face Recognition Attendance System
 - Vehicle Detection System
 - Object Detection System
 - Emotion Detection System
 - License Plate Recognition System
-

Project Evaluation Criteria

Projects will be evaluated based on:

- Creativity and originality of the idea
 - Problem-solving approach
 - AI implementation
 - Technical knowledge
 - User Interface and User Experience
 - Innovation
 - Practical usefulness
 - Project presentation
 - Communication skills
-

Internship Completion Requirements

To successfully complete the internship and become eligible for the DudeX Innovations Internship Completion Certificate, every student must:

- Complete both assigned projects within the internship duration.
- Deploy both projects on a live hosting platform and ensure they are fully functional.
- Upload the complete source code for both projects to a GitHub repository.
- Submit the GitHub Repository Link and the Live Deployment Link for both projects through the official Project Submission Form, which will be shared during the final week of the internship.
- Attend the final project showcase conducted by the DudeX Innovations team.
- Present and demonstrate the working features of both projects during the showcase session.

Only students who successfully complete both projects, submit all the required links before the deadline, and participate in the final project presentation will be eligible to receive the DudeX Innovations Internship Completion Certificate.

Awards & Recognition

To encourage innovation and excellence, the best-performing interns will receive special recognition.

The evaluation will consider:

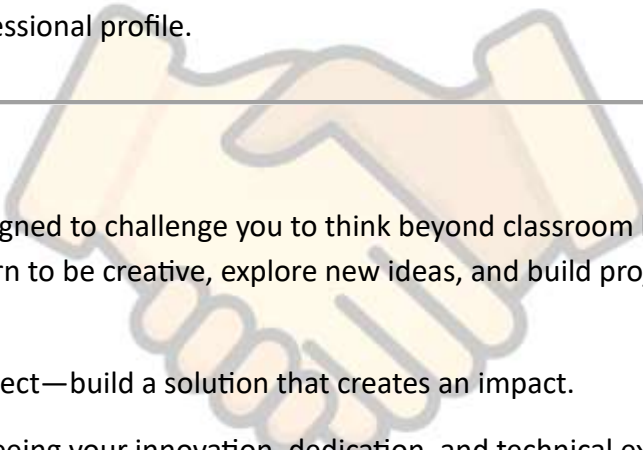

- Best project idea
- Innovation
- Technical implementation
- Project quality
- Presentation skills
- Overall performance

The top-performing students will receive:

- **Winner Certificate** (1st Place)
 - **Runner-up Certificate** (2nd Place)
-

What You Will Gain

By completing this internship, you will:

- Gain practical experience in Artificial Intelligence.
 - Build two industry-level AI projects.
 - Strengthen your problem-solving and development skills.
 - Learn how to design and implement AI solutions from scratch.
 - Build a professional project portfolio.
 - Enhance your resume with real-world project experience.
 - Receive an Internship Completion Certificate after successfully completing both projects.
 - Become eligible for Winner or Runner-up recognition based on your overall performance.
 - Showcase your projects and achievements on LinkedIn and other professional platforms to strengthen your professional profile.
- 

Final Note

This internship is designed to challenge you to think beyond classroom learning. We encourage every intern to be creative, explore new ideas, and build projects that solve real-world problems.

Don't just build a project—build a solution that creates an impact.

We look forward to seeing your innovation, dedication, and technical excellence.

Best Wishes!

Team DudeX Innovations
